POLICE COOPERATION

Re telephone call this date from Supervisor [redacted]
Division 6, the Bureau, to SA [redacted] Baltimore Office.

Enclosed for Chicago is an artist's sketch of UNSUB who is
believed responsible for sex offenses in the Washington,
D. C., Metropolitan area.

For the information of Chicago, Supervisor [redacted] advised
that a citizen had telephonically contacted the Bureau,
and advised that the artist's sketch, which is enclosed,
appeared similar to the artist's sketch appearing in news-
papers of UNSUB in captioned case.

REC-49

For further information of Chicago, in the case captioned,
"UNSUB; Sex Murder of Stephen Francis Johnston - Juvenile,
Vicinity of 6200 Block Kennedy Drive, Bethesda, Maryland,
5/8-9/66, MISCELLANEOUS - INFORMATION CONCERNING; POLICE
COOPERATION, OO: BALTIMORE", the victim was a white male,
age 9½ years. His body was found in a wooded area, Bethesda,
Maryland, approximately 8:00 a.m., May 9, 1966, with multiple
stab wounds about the face, neck, and back. Cause of death
established as some stab wounds to throat and resulted in
suffocation. The victim's pants and underclothing were
pulled down to his ankles. Autopsy revealed no indication
of sex molestation. Multi-colored turkish towel soaked with
blood was found at the crime scene. Examination of the towel
by the FBI Laboratory, at request of the Montgomery County
Police Department, (MCPD) reflects blood on towel the same
type in blood group as victim's. FBI Laboratory also
identified on towel four male, brown colored pubic hairs

and some dog hairs.

Police Department investigation indicates that victim last seen alive at 2:35 p.m., May 8, 1966. It is believed that he was killed at place where body was found, between 2:35 p.m., and no more than two hours later. Place where corpse found is used by neighborhood youths and sex deviates to masterbate and perform abnormal or perverted sexual acts.

No witnesses to crime have been found. Police Department is conducting concentrated major case investigation with emphasis being placed on neighborhood and Washington Metropolitan area sex offenders.

An MCPD artist prepared a sketch of an unknown subject who was believed responsible for several sex offenses in the same area in which captioned victim believed murdered. This police artist sketch is the composite photographed referred to in Bureau airtel to Baltimore, dated May 13, 1966. The individual depicted in the police artist sketch is unidentified to date, and is being considered as a logical suspect in the murder of STEPHEN JOHNSTON, it being noted that there are no witnesses to the JOHNSTON murder.

the Bureau on 5/13/66 advised that
For further information of Chicago, an employee of the Bureau in the Identification Division previously noted a similarity between the photograph enclosed and the photographs appearing on IO [redacted] MCPD have displayed IO [redacted] to all individuals responsible for furnishing information resulting in the production of the enclosed artist's sketch, and none of the witnesses advised that [redacted] appeared, in any way, to be the person responsible for the offenses in which they were involved. The MCPD therefore eliminated him as a suspect in the sex murder of STEPHEN FRANCIS JOHNSTON.

SUBJECT: MURDER OF EIGHT FEMALE STUDENT
NURSES, 2319 EAST 100TH STREET,
CHICAGO, ILLINOIS, JULY 14, 1966
INFORMATION CONCERNING

By reference from the Director's Office, at 11:27 a.m., 7/14/66, Congressman Roman C. Pucinski (Democrat - Illinois, who is from Chicago) telephoned Bishop in my office and desired to know what assistance the FBI would be able to give the Chicago Police Department in connection with above-captioned mass murder. He stated this is considered to be the "crime of the century" in Chicago.

My office had previously been in contact with SAC Johnson in Chicago and Johnson has advised that he has already extended to the Chicago Police Department an offer of complete cooperation of the FBI with regard to use of the FBI Laboratory and Identification facilities. Johnson had also advised the Chicago authorities of the provisions of the fugitive felon statute and assured them that, if a warrant is issued for the arrest of the subject, the FBI would assert all resources to locate him under the fugitive felon statute.

Congressman Pucinski was advised of the above and stated that he was "very pleased that the FBI was already on top of the situation" and had offered complete cooperation to the Chicago authorities.

It is noted that my office has already received a number of press inquiries concerning this matter and they are being advised we have offered the Chicago authorities the full cooperation of the Laboratory and Identification Divisions, and we are also explaining the provisions of the fugitive felon statute.

In connection with publicity being given this matter, the Chicago police artist's sketch of the subject has been shown on television and printed in the newspapers. At 12:15 a.m., 7/16/66, telephonically contacted Extra-Duty Supervisor Division 6, and stated she believed the artist's sketch of the nurses' killer strongly resembled a previous artist's sketch published several months ago when a young boy was murdered in Kenwood, Maryland.

It appears has reference to the case captioned "Stephen Francis Johnston - Victim, Murder, Police Cooperation" wherein Johnston was the victim of a sex murder at Bethesda, Maryland, on 5/8-9/66. At the time of this murder a composite artist's sketch was drawn based on description of individual suspected of sex crimes in the area.

ACTION:

Weekend Supervisor of the Baltimore Office was instructed by SA to forward a copy of the artist's sketch prepared at the time of the Johnston murder as well as pertinent background information to the Chicago Office (Chicago file 88-10194) for dissemination to the Chicago Police Department.

Special Agent in Charge Johnson advised that a positive identification of Richard Frederick Lindberg, FBI #967004D was made by the surviving victim. This identification was further confirmed according to Chicago Police Department Chief of Detectives [redacted] by fingerprints found at the scene with those prints made available to them by the Bureau. SAC Johnson advised that aggressive action is being obtained to obtain jurisdiction under the Unlawful Flight statute.

The Chicago Police Department has not as yet obtained a warrant for Lindberg. Johnson stated that he is staying on top of this situation and just as soon as a warrant is obtained by the Chicago Police Department, a request would be made for FBI assistance to locate Lindberg as an unlawful flight subject.

The Identification Division on July 15, 1966, forwarded identification record and fingerprints of Lindberg via commercial airlines to our Chicago Office who provided this material to the Chicago Police Department.

SAC Johnson advised the Chicago Police Department had expressed deep appreciation for the assistance furnished them by the FBI in this matter. Johnson noted the identification

Re: Richard Frederick Lindberg

of Lindberg as a subject in this matter has been made known to only a few members of the Chicago Police Department at this time and has not been brought to the attention of any representatives of the news media. Johnson stated that he has alerted necessary personnel in his office so that he will be in a position to take immediate action to locate Lindberg in the event unlawful flight process is obtained. Lindberg had a record of arrests in the State of Texas from 1959 to 1965, and at one time had been incarcerated in the Department of Corrections, Huntsville, Texas. His record includes malicious destruction of property, burglary and forgery. Of significance is one charge on January 25, 1965, at Dallas, Texas, for aggravated assault on a male and female. One civil print was located in the Identification Division Reflecting an application for a Merchant Mariner's Document at Chicago, Illinois, on April 25, 1966, at which time his address was indicated as 3966 Avondale, Chicago, Illinois.

The Chicago Office was instructed to immediately submit necessary data for issuance of wanted flier. This matter will be followed vigorously at the Seat of Government and you will be kept advised of developments.

ACTION:

SAC Johnson was instructed to keep the Bureau currently advised of all developments in this matter and to vigorously press for Federal process under the Unlawful Flight statute.

SAC Johnson was further instructed to advise all offices of current developments in order that we can capitalize immediately on developments upon the issuance of process.

A stop was placed on Lindberg's fingerprints at the Identification Division so that appropriate action can be immediately instituted in the event he is fingerprinted.

ADDENDUM

SAC Chicago advised that the Chicago Police Department had requested Bureau assistance under the Unlawful Flight Statute and was obtaining a local murder warrant for Lindberg upon which a Federal warrant would be based. This case being handled as a special. Necessary material for a Wanted Flyer being flown in from Chicago.

Sketch of Killer Brings Flood of Chicago Leads

CHICAGO, (AP) — An artist's sketch of the demented slayer who killed eight student nurses has brought a flood of new leads — and new confidence — to detectives determined to hunt the man down.

"We've been inundated with phone calls, tips and leads since we added the sketch to our description," said deputy chief of detectives Michael Spiotto.

A police artist sketched the killer's face after closely questioning the only survivor of the slayings who roused from heavy sedation yesterday after her long night of horror.

SKETCH OF KILLER

Expresses Confidence

Detective Spiotto said the two-hour interview was eminently fruitful.

"Number one, we're confident we're going to get this guy," he said. "Number two, we know the girl can identify him."

The girl, 23-year-old Corazon Amurao, filled in details missing from her first, hysterical account blurted out to police when she finally fled the blood-splattered death scene Thursday at dawn.

At least one mystery remained, however, and police shed no new light on it after the interview with Miss Amurao.

Why were there no loud screams, no outcries for help, during the time the killer bound and gagged the nine girls, herded them into a back room, and led them out one at a time to their deaths?

"There were some light outcries by the girls who came in late, but it wasn't much,"

Spiotto said. Miss Amurao told him.

Were Not Drugged

An autopsy report showed the girls had not been drugged to prevent screams. Three of them arrived home after the killer had already gathered the other six into the rear room.

Spiotto said he believed the killer was no stranger to the area of the housing unit which served as a dormitory for the student nurses in training at a hospital about a mile away.

"I believe it was someone who knew the neighborhood," he said.

Miss Amurao told police she never had seen the man before.

The autopsy report produced no evidence that any of the

victims had been molested sexually, according to coroner Andrew J. Toman. He said laboratory tests for conclusive findings would be available Wednesday.

Girl Views Photos

Nevertheless, police showed Miss Amurao photographs of about 200 sex offenders. She did not identify any of them, Spiotto said, but added "there are a few individuals we are very much interested in — some more than others."

The sketch drawn from Miss Amurao's description shows a crew-cut young man with high cheekbones, aquiline nose, jutting chin, narrow-set eyes beneath brows of medium thickness, and thin lips. She said he definitely was a white man and that his hair was "some-where between blond and black."

Detective Spiotto said the sketch had triggered scores of leads.

He said his staff of 40, working around-the-clock with days-off cancelled, plus 40 more detec-

tives from other departments were checking out more than 100 tips, many of them from other parts of the country.

Spiotto himself worked without sleep from 6:30 a.m. Thursday until 11 o'clock last night — leaving word to be called at home if there was an important development.

Detectives had picked up about 50 suspects for questioning. None panned out.

Laboratory technicians were checking about 100 fingerprints lifted from the apartment unit. They had to be sorted from the victims' own fingerprints and those of their frequent visitors.

Chicago's crime lab staff also was sifting possible evidence from eight plastic bags of effects taken from the townhouse — bloodstained sheets, clothing and the like.

\$10,000 Reward Offered

Police and officials of the South Chicago Community Hospital began a check on present and past hospital employees, and the hospital put up a \$10,000 reward for information leading to the killer's capture.

The autopsy report and further examination of the scene of the killings added details as to how each girl met her death. These included:

Nina Jo Schmale — bound by her wrists, gagged, stabbed four times in the neck, and strangled.

Valentina Pasion — bound by her wrists, stabbed four times in the neck and throat, strangled.

Merlita Gargullo — bound by her wrists and ankles, a 6-inch-wide and 4-inch-deep stab wound in her neck.

Patricia Ann Matussek — bound by her wrists, strangled.

Mary Ann Jordan — stabbed six times in the torso, chest, neck and face. She was not bound.

Pamela Wilkening — bound by her wrists, stabbed in the chest.

Suzanne Farris — bound by her wrists, stabbed nine times in the chest, shoulder, neck and face.

Gloria Jean Davy — strangled. She was not bound.

Coroner Toman said the killer used strips of bedsheets to strangle five of the girls. He also said the stab wounds were made by a double-edged knife blade a half inch wide and at least 4 inches long. He said the girls had been tied before each died, and that there were no bruises or scratches on any of the bodies.

Survivor Tells of Horror, Describes Killer of 8

A By Jules Loh

CHICAGO, July 15 (AP) — The anguished survivor of Chicago's townhouse massacre relived for police today the hours of horror when eight other student nurses were taken one by one to be slaughtered.

In a two-hour interview from her hospital bed, Corazon Amurao filled in details missing from her first, hysterical account after the killings yesterday. She also examined pictures of 200 sex offenders, but could make no identification.

"We are now more hopeful," said Deputy Chief of Detectives Michael Spiotto. "The girl has given the police artist the details of the killer's features."

Police made a sketch from her description: a white man, about 170 pounds, 6 feet, with close-cropped hair that in color is somewhere between

black and blond, perhaps "dishwater blond," Spiotto said.

"It was her impression that she had not seen the killer before," Spiotto reported, but she could identify him if she saw him again.

Cmdr. Francis Flanagan of the Homicide Division had this reply to the question of why no one heard the girls scream as the killer took them one by one to other rooms and strangled, stabbed them to death:

"They were completely paralyzed by fear like a bird or a cobra. Secondly, perhaps they thought their chances were better if they went along with the guy, not knowing he had murder in mind."

Dr. Andrew J. Toman, Cook County coroner, said autopsy reports produced no evidence that any of the victims had been molested sexually but that vaginal smears would be examined for a conclusive

finding. He said the crime lab should have a report on the smears by next Wednesday.

All but two of the victims had been stabbed, most of them several times. Some died of strangulation despite the stab wounds.

Dr. Toman said most of the stab wounds were three or four inches deep, "but it's hard for me to say what type of a knife was used."

Dr. Toman will preside over an inquest scheduled for next Thursday.

A Spanish-speaking detective was among the five men who interviewed Miss Amurao, but Spiotto said the nurse conversed in English. Miss Amurao, 23, an exchange student from the Philippines, had been

in this country only two months.

Another question that nagged police was why nobody heard screams. It was a cool night, windows were open, and the walls of the contemporary style townhouse are not thick.

Detective Spiotto said Miss Amurao told him "there were some light outcries by the girls who came in late, but it wasn't much."

Mary Ann Jordan, 20, Suzanne Harris, 21, and Gloria Jean Davy, 22, returned to the townhouse after the killer had already herded its other six occupants, including Miss Amurao, into a back room.

It was from that room — which police referred to as the killer's "base of operations" — that he dragged his bound and gagged victims to their deaths, one at a time.

During one of his absences Miss Amurao hid under a bunk bed — and saved her life.

Spiotto said Miss Amurao "seems to be a settled person, and a fine witness." A hospital attendant said her condition was as good as could be expected.

None of the six men picked up in a manhunt in and around Chicago has become a prime suspect, police reported.

One was picked up after a clerk at an airline ticket counter noticed blood on his shirt. Police said the blood was many days old and that the man did not even fit the sketchy description Miss

Amurao gave while still semi-hysterical shortly after the crime.

One phase of the investigation proceeded at full speed throughout the night — the sorting of fingerprints lifted from the blood-splattered townhouse. Laboratory technicians fingerprinted the victims as well as other frequent visitors to the townhouse and began systematically eliminating them.

Employees Checked

Albert S. Daniel, executive director of South Side Community Hospital, where the victims were in training, said police and hospital officials had begun a check on present and past hospital employees. The hospital staff numbers 600.

Daniel said the hospital had offered a \$10,000 reward for information leading to the killer's arrest.

Other details police were checking out included:

- Scrapings from the victims' fingernails.

- Clothing, bedding and sheets that were torn into strips to bind and gag the victims.

- Bloodstains taken from the townhouse.

- Names and addresses of men found among the victims' personal effects.

- A tire print and skid mark found in the alley behind the townhouse.

The Chicago Tribune Press Service reported.

Detectives were also investigating the report of Rose

Marie Battista, that she feared the killer had used her basement to clean himself after the murders.

She said that some time after 1:30 a.m. Friday she heard the sound of running water in her basement. At the time, she said, she was too frightened to investigate. When she went to the basement later, she said, she found a hose that showed signs of having been used. She also found water on the floor. The Battista home is about four blocks from the place where the women were slain.

At 3:03am today SAC Johnson, Chicago, telephonically advised extra duty Supervisor Earl Edward Sheets subject had been located at 12:32am today by the Chicago Police Department. He advised subject was found in a rooming house at 617 Madison Street, Chicago, where he was registered under the name of B. BRYAN. The subject's left inner arm and right wrist had been slashed, possibly with a knife or razor blade. Subject was taken to the Cook County Hospital for treatment by the police officers, who at that time were not aware of the identity of the subject.

After the arrival of the subject at the hospital a nurse on duty became suspicious of the subject and recalled tattoos on subject resembled those in the news media. She notified the hospital officials and the officer who had brought subject to the hospital and a tentative identification of the subject was made. Bureau agents were brought into the hospital room and positive identification was made from fingerprints, tattoos and personal observation.

Subject said to be in a state of shock; however, the Doctor treating subject stated the wounds are superficial. Subject has not been interviewed in view of condition.

SAC Johnson further advised he had been contacted by [redacted] Chief of Detectives, Chicago Police Department, who expressed his deep appreciation for the assistance rendered by the FBI in this case and that the Police Department was issuing a press release advising that the identification of the subject was the result of a joint effort by the FBI and the Police Department. SAC Johnson stated the FBI has received very favorable publicity in the press in the Chicago area. He advised subject, since apprehension, has been in the custody of the Chicago Police Department. *82-3365-32X*

SAC Johnson advised he has notified offices with leads of the location of the subject.

ACTION: SAC Johnson requested Bureau advise all continental offices to discontinue. This has been done.

Special Agent in Charge Johnson of our Chicago Office advised that news media in Chicago have prominently emphasized the Bureau's cooperation as a major factor in the swift apprehension of Speck. Chief of Detectives, [redacted] Chicago Police Department expressed his deep appreciation for the Bureau's cooperation in locating and expeditiously making available to the Police Department Speck's fingerprints. It is to be noted that copies of Speck's arrest record and fingerprints were flown to Chicago and delivered by our Chicago Office to the Chicago Police Department. Fingerprints from the crime scene were then identified with the fingerprints supplied by the Bureau.

Extensive nationwide investigation had been undertaken by the Bureau after the Chicago Police Department made the identification of Speck and filing local murder warrant against him. Of further interest is the fact that hospital officials brought Agents to subject's room and an identification was made by Bureau Agents based on fingerprints.

By way of background, at approximately 12:30 p.m., July 15, 1966, Special Agent in Charge Johnson advised that information was furnished by Chief of Detectives [redacted] that Speck was an excellent suspect in the murder of the eight female student nurses as a result of the surviving victim having viewed approximately 100 photographs of merchant seamen from which she selected Speck's photograph as that of the murderer. The merchant seamens hiring hall is located only 100 yards from the victims's residence. After this identification was confirmed on July 16, 1966, with fingerprints from the crime scene, the Chicago Police Department advised Special Agent in Charge, Johnson that a local murder

warrant would be filed against Speck and that the Bureau's assistance was requested under the Unlawful Flight Statute. The unlawful flight warrant was obtained on July 16, 1966, with the authorization of the United States Attorney's Office. Telephonic leads were sent out to a number of offices by the Chicago Office where subject had relatives and previous employment. Maritime offices were likewise alerted. All offices throughout the country were advised by teletype on July 16, 1966. Teams of Agents from our Chicago Office were engaged in an all-out effort in checking flophouses and bars until Speck was identified in a Chicago hospital, where he had been admitted for self-inflicted wounds.

Of interest is the interview conducted by our Dallas Office with subject's mother, [redacted] and subject's sister, [redacted] both of [redacted] the sister was completely uncooperative and belligerent. The mother was considerably upset and furnished information as to subject's date and place of birth and fact that subject had been a truck driver. Other interviews in Dallas established that subject left Dallas on March 13, 1966, to go to Chicago.

Of further interest, our Dallas Office ascertained that subject was arrested by the Dallas Police Department on January 11, 1965, on an assault charge. Speck grabbed a female around the neck, put a knife to her throat and told her if she screamed he would kill her. She screamed and fell to the ground at which time an unknown white male across the street yelled and the subject ran away. He was arrested a short while later by Dallas police officers about three blocks away at which time the knife was recovered. The victim identified subject in a police line-up. Speck admitted the offense, claimed he had been drinking and that robbery was his motive.

At the time of his arrest he was on parole from the Department of Corrections, Huntsville, Texas, where he had been serving his three-year sentence for burglary and forgery. He was re-committed to serve, on a concurrent basis, the sentence on the assault charge with the previous burglary and forgery sentence. He received a discharge from the penitentiary on July 2, 1965.

Memorandum to Mr. DeLoach
RE: RICHARD FRANKLIN SPECK

OBSERVATIONS: While Speck was not on parole at the time of the Chicago murders, he was the recipient of parole in 1965 which he promptly violated by assaulting a female and was re-committed to serve his sentence. It is apparent that institutional adjustment is no guarantee as to the suitability of this type of individual for parole consideration.

[redacted] newspaper man connected with the "Patterson Morning Call" and "Bergen Record," Patterson, New Jersey, telephoned my office 6:00 PM, 7-20-66, and inquired as to how he could obtain photographic copies of the fingerprints of Richard Speck. I informed him that information in the files of the Identification Division is available only to duly authorized law enforcement agencies, local and Federal governmental agencies. *10*

He explained that they had an old involved murder case which the Bergen County Sheriff's Office was working on and MO in their case was similar to that in which captioned subject is involved in Chicago, and that although the Bergen County Sheriff's Office has been in touch with the Chicago authorities, in his opinion they are moving entirely too slow and he was interested in speeding up this matter. He said that he would contact the Bergen County Sheriff's Office and have them call the Identification Division immediately and request photographic copies of the fingerprints of Speck and then he would like for us to turn these prints over to his representative in Washington who would drive them to Patterson, New Jersey, during the night. *B*

[redacted] was quite insistent.

I again informed him that, under no circumstances, would we release copies of these fingerprints or any other fingerprints to other than duly authorized representatives of law enforcement or governmental agencies. He stated that in any event he was going to contact the Bergen County Sheriff's Office regarding this matter.

I alerted Inspector Bishop in Mr. Wick's office and Identification Division supervisory staff on each shift to the possibility of further contact by [redacted]

The above composite was prepared from descriptions furnished by victims of assaults.

Between July 6, 1965 and January 24, 1966 there have been eight known assaults on female victims in the lower Chester and Delaware County area. Assailant generally begins by grabbing victim by the throat and then punching them in the face. On occasion he has first reached up under the victims dress. ALL ASSAULTS HAVE OCCURRED BETWEEN 7:15 AM and 11:30 AM with one exception, that having occurred in a Hospital at 1:15 AM; three have been on or near school properties. During the summer months the Suspect was described as generally wearing a T shirt and light colored trousers. In November and January attacks the Suspect was described as generally wearing dark colored clothing, black sweater or jacket and dark or black trousers — and on one occasion was wearing desert boots. On only one occasion was the assailant described as having a "pock-marked" face. On one occasion he posed as an Insurance Agent and gained entrance to the home of the victim on the pretext of using the telephone to call his company. On #1 attack assailant was seen leaving the area in a White Convertible with Black Top.

Title: RICHARD FRANKLIN SPECK

Character: UNLAWFUL FLIGHT TO AVOID PROSECUTION - MURDER

Synopsis:

During the early morning hours of 7/14/66, eight female student nurses in their early 20's attached to the South Chicago Community Hospital, Chicago, were murdered in their townhouse dormitory, at 2319 East 100 Street, Chicago. Some of the victims were stabbed in the neck and others were strangled to death, according to the Chicago PD. On 7/15/66, Chicago PD displayed 100 photographs of merchant seamen working out of a hiring hall approximately 100 yards from the victim residence. [redacted] a surviving victim, made a positive identification of RICHARD FRANKLIN SPECK, FBI Number 967 004 D. On 7/16/66, Chief of Detectives [redacted] Chicago PD, requested FBI assistance under the UFAP statute. On 7/16/66, a complaint authorized by AUSA [redacted] signed by SA JOHN P. QUINLAN, alleging a violation by the subject of Title 18, Section 1073, was filed before USDC Judge JULIUS HOFFMAN, Northern District of Illinois, at his residence; and a warrant of arrest was issued. At 12:32 a.m., on 7/17/66, subject under the name B. BRYAN was brought to the Cook County Hospital, Chicago, by the Chicago Police Department with self-inflicted wounds. Subject's left inner forearm and right wrist were slashed. Hospital official considered wounds superficial. Bureau Agents made positive identification of subject at 1:30 a.m. by fingerprints, tattoos, and physical appearance. Subject appeared to be unconscious during presence of Bureau Agents and no conversation of any kind was had with subject. On 7/19/66, USDC Judge JULIUS HOFFMAN dismissed the UFAP complaint which he had issued on 7/16/66. SUICIDAL TENDENCIES.

DETAILS:

This investigation was predicated on information provided the Chicago Office on July 14, 1966, by Commander [redacted] Homicide, Chicago Police Department, who advised that during the early morning hours of July 14, 1966, eight female student nurses in their early 20's attached to the South Chicago Community Hospital, Chicago, Illinois, were murdered by a person then unknown, in their townhouse dormitory located at 2319 East 100 Street, Chicago, Illinois. He advised some of the victims were stabbed in the neck and others were strangled to death.

On July 15, 1966, Commander [redacted] advised that the Chicago Police Department had displayed 100 photographs of merchant seamen working out of a hiring hall located approximately 100 yards from the townhouse residence of the victims. He advised that the surviving victim, [redacted] a transfer student nurse from the Philippine Islands, made a positive identification of RICHARD FRANKLIN SPECK, FBI Number 967 004 D, as the person with whom she talked for approximately 30 minutes at approximately 12:30 a.m. on July 14, 1966, at the residence of the deceased nurses, and the person she observed take the other victims from their rooms after binding them. Commander [redacted] advised that [redacted] was bound but in the absence of the subject, rolled under the bed to prevent later location by the subject. He advised that [redacted] remained under her bed until her alarm clock went off at 5:00 a.m. At that time, she went to a second floor porch roof, and called for help. Pursuant to this call, the Chicago Police Department went to the residence and located the eight bodies and [redacted] in a hysterical condition.

On July 15, 1966, Chief of Detectives [redacted] requested SAC MARLIN W. JOHNSON, to obtain from the FBI Identification Division, Washington, D. C., fingerprints of RICHARD FRANKLIN SPECK so that they could be compared with latent impressions obtained at the crime scene.

CG 88-10194

On that same day, July 15, 1966, the FBI Identification Division forwarded subject's prints via commercial airlines to FBI, Chicago, which were immediately provided at the direction of SAC MARLIN W. JOHNSON to the personal possession of Chief of Detectives [redacted] at 7:30 p.m.

By letter dated July 16, 1966, Chief of Detectives [redacted] requested assistance of the FBI under the Unlawful Flight to Avoid Prosecution Statute.

b6
b7C

On July 16, 1966, a complaint authorized by Assistant United States Attorney [redacted] signed by SA JOHN P. QUINLAN, alleging a violation of Title 18, Section 1073, by RICHARD FRANKLIN SPECK, was filed before United States District Court Judge JULIUS HOFFMAN, at his Chicago residence, and a warrant of arrest for SPECK was issued. Judge HOFFMAN advised that in his opinion, SPECK would not be bondable if arrested by the FBI on this warrant.

At 1:15 a.m., Sunday, July 17, 1966, FBI liaison at the Second Area Homicide, Chicago, telephonically advised SAC MARLIN W. JOHNSON at the Chicago Office that the Chicago Police Department had received a call from the Cook County Hospital indicating that a person was then at that hospital possibly identical to the subject in that his tattoos were similar to the subject's and, according to the hospital employees, this person physically resembles the subject.

SAC JOHNSON immediately sent three Agents from the Chicago Office to the Cook County Hospital to resolve the question of the identity of this person.

FEDERAL BUREAU OF INVESTIGATION

1

Date 7/21/66

On Sunday, July 17, 1966, at 1:30 a.m., [redacted]
[redacted] Cook County Hospital,
1835 West Harrison Street, Chicago, was interviewed at this
hospital by SAs [redacted] MC DONOUGH and QUINLAN. He was
advised of the identity of the interviewing Agents and of
the nature of the investigation. He advised after being
displayed a photograph of RICHARD FRANKLIN SPECK that this
person was then in the Trauma Ward of this hospital as a
patient with self-inflicted wounds.

[redacted] brought the interviewing Agents to
the Trauma Ward and it was observed that one male patient
was in this room.

Detective [redacted], Area Two, Homicide,
Chicago Police Department, was already present in the room
when the Special Agents arrived with [redacted]
Detective [redacted] advised that in his opinion, the patient
in this room was, in fact, RICHARD FRANKLIN SPECK.

b6
b7C

The arms of the patient were completely covered
with ace type bandages to keep the wound bandages in place,
having the effect of completely covering the tattoos on each
arm.

The Special Agents observed the patient bore a
strong resemblance to RICHARD FRANKLIN SPECK. The identity
was resolved by an examination of the right thumb which
indicated it was identical to the right thumbprint of
RICHARD FRANKLIN SPECK.

[redacted], for the Benefit of the Special
Agents, but not requested by them, cut off the ace type
bandages so the tattoos would be clearly visible. The
following tattoos appeared on the person identified as
RICHARD FRANKLIN SPECK:

It was noted that SPECK's hair was not a crew cut but relatively long and appeared to be light blond in color and straight in texture. He had what appeared to be a mustache of approximately three or four days growth.

[redacted] produced hospital records which indicated this person was brought to the Cook County Hospital by Unit 171 of the Chicago Police Department at 12:32 a.m. on July 17, 1966, from Room 548, 617 Madison Street, Chicago, under the name B. BRYAN, and was being treated for superficial, apparently self-inflicted, wounds on the inner left forearm and right wrist.

He advised that [redacted] observed the tattoos on this patient's arms after the Chicago Police Department had left the hospital and he formed the opinion that this patient could be identical to the person sought for the murder of the eight student nurses in that the tattoos had received extensive news media coverage and he had personal recollection of the tattoo "Born to raise hell."

He advised that after [] advised of his concern regarding the identity of this person, the Chicago Police Department was called and advised that a person resembling the subject and having a similar tattoo was then in the Trauma Ward at the Cook County Hospital.

During the presence of the Special Agents in the Trauma Ward of the Cook County Hospital, no conversation of any kind was had with SPECK by any Agent and it appeared he was not conscious during the time the Agents were at his bedside.

Dear Director Hoover:

Please accept the sincere appreciation of a big city policeman for the magnificent cooperation received almost daily by this Division in its law enforcement efforts.

Mr. Marlin W. Johnson, Special Agent in Charge of the Chicago Office, has sustained in our city, a climate of cooperation that results in a meaningful challenge to professional crime in our community. His wholesomeness of spirit, his personal attention, and his communication with our Department, was once again repeated in what probably will be the most sensational crime in the United States, the murder of our eight nurses.

Richard Frederick Speck

I can only say -

Thank you for your cooperation with special gratitude to Marlin W. Johnson.

Sincerely,

Chief of Detectives

On the morning of 7/18/66, [redacted]

[redacted], advised that she was from Sydney, Australia and was visiting in Springville. She saw in the local paper the artist's conception drawing of subject and later his photograph. She recalled that in January of 1964 in Sydney, two young girls were brutally murdered. This occurred not too far from where she was living in Sydney at the time. She stated that the description of the murderer in Sydney closely followed that of SPECK. She felt that since SPECK had been in the Merchant Marine it might be possible for him to have been in Australia in January of 1964.

SAC recalls that while he was in London a police officer from Sydney was visiting there. This officer discussed this murder at that time stating that they had not been able to obtain any good leads.

As a matter of foreign police cooperation, Bureau may desire to furnish photographs and detailed description of SPECK and forward this to the police in Sydney for their consideration.

RICHARD FRANKLIN SPECK, aka
UFAP - MURDER

Re Omaha airtel 7/18/66.

From a review of the Identification Record on Speck, under FBI number 967 004 D, it is noted that Speck was arrested at Dallas, Texas, on 9/16/63, thereafter indicted and sentenced to serve three years for burglary and passing forged instruments. He was thereafter confined to the Texas Department of Corrections at Huntsville from 11/19/63 to 1/2/65 when he was paroled on what was termed as a conditional pardon to Dallas County. Seven days later he was arrested at Dallas, Texas, his parole revoked and he was returned to the Department of Corrections at Huntsville where he remained until 7/2/65 when he was released upon completion of sentence. From the above, it is apparent that Speck could not have been in Sydney, Australia, during 1964 and accordingly no dissemination is being made as suggested in your airtel, it being noted the murders referred to occurred in January, 1964, in Sydney.

1 - Chicago (88-10194)

NOTE: Omaha Office received a call from Iowa woman who was from Australia and who considered the description of Speck, identified in the Chicago nurse multiple slayings, as similar to description of a murderer who killed two young girls in Sydney, Australia, in January, 1964. Omaha Office suggested furnishing photographs and description to police in Sydney for their consideration. Since he was in custody at the time, this is not being done.

Speck is the individual under indictment for the murder of the eight nurses in Chicago. SAC Johnson, Chicago Office, advised that Mr. Dan Ward, State's Attorney for Cook County, Illinois, who will be responsible for the trial of Speck asked whether the services of the Bureau's Exhibits Section could be made available to construct a mock-up of the crime scene. This is a two-story dormitory where the eight nurses were murdered and would be strictly for trial purposes. The State's Attorney has no facilities at his command for construction of such an exhibit. Ward is a strong supporter of the Bureau.

SAC Johnson strongly recommends that we make an exception to our normal policy of not affording the services of the Exhibits Section to outside prosecutors since the Bureau cooperated in this case and opened an Unlawful Flight case on Speck and further, the identification of Speck was made on the basis of fingerprints furnished upon request by the Bureau. He thought that the Bureau would receive worldwide publicity if we honored this request.

The crime scene is presently protected from outsiders and the Bureau exhibits specialists would have to go to Chicago in the immediate future to make the necessary measurements and photographs required for construction of such an exhibit. We would thereafter presumably have considerable time to actually construct the exhibit as trial of Speck is not expected to take place for several months.

EX-103

RECOMMENDATION: If we do this, we will undoubtedly receive a number of requests from county and local prosecutors for similar services which we will just not be able to honor; however, since this has been characterized as "the crime of the century" I feel that we ought to honor the request and construct this exhibit.

SUBJECT: RADIO BROADCAST OF FULTON LEWIS III
THURSDAY EVENING, 7-28-66, 6:30 P.M.

This evening's broadcast was by Fulton Lewis III, substituting for his father, Fulton Lewis, Jr., and was heard locally over Radio Station WGMS.

Mr. Lewis began his broadcast by quoting from the Director's press release issued today in connection with the issuance of Uniform Crime Reports--1965. Lewis cited statistics showing the crime rise, quoted "Crime Clock" figures and mentioned briefly the FBI studies relating to criminal repeaters and the number of policemen killed in the line of duty. Lewis offered no editorial comment other than to say that the Director's figures certainly tended to substantiate the fact that we were in an era of soaring crime rates.

Lewis then discussed the problem of Supreme Court decisions and how these decisions worked to the detriment of law enforcement. He noted that just today a legal expert had commented that Richard Speck, charged with the killing of eight nurses in Chicago, might escape any punishment for his crime. This expert had said that Speck could even admit he had committed these murders and if it could be shown that although he was legally insane at the time the act was committed and was not insane at the present time, he could end up as a free man.

Lewis discussed the case of [redacted] and described how [redacted] had thrown a small girl from the roof of a New York City apartment building and caused her death. [redacted] was first found to be criminally insane. Later he was released to stand trial and, after pleading guilty, was given a 5- to 10-year sentence. Eventually, [] was arrested by the FBI on an unlawful flight warrant. Lewis concluded by stating that the foregoing was illustrative of what can occur when undue leniency in parole and probation matters is afforded criminal offenders. He indicated that in view of some of the opinions that had been expressed, the same situation could happen in the Speck case whereby a vicious killer could escape any penalty whatsoever.

They conversed briefly in the station where PC had found suspect reading comic books while sitting on a bench. During the conversation suspect told PC that he needed a girl badly and suggested that PC obtain one for him, however, during the conversation suspect got up from the bench and approached a young girl who was carrying a suitcase in the crowded lobby. According to PC, the girl was a complete stranger, however, suspect immediately began touching the girl on the arms and upper body and she thereafter became frightened and ran off through the crowd. PC stated this behavior shocked him and he left the terminal.

Thereafter PC made spot checks of the Chicago Greyhound Bus Terminal and near north side honky tonks during the afternoon of 7/16/66. A check of this theater by Bureau Agents determined from ushers and theater manager [REDACTED] that SPECK had spent the late afternoon of Friday, 7/15/66, asleep in Aisle 4, Row 2, of the theater and that one of the ushers had woke him at approximately 8:30 PM.

PC assisted Agents with a check of all persons during two afternoon shows on 7/16/66, in addition to making numerous spot checks of the near north and south side honky tonks in the Chicago area.

PC provided accurate specific information concerning description of suspect SPECK and his possible whereabouts. It is believed that in the absence of fingerprint identification effected through the efforts of the Chicago Police Department and the Identification Division SPECK would have undoubtedly been identified and apprehended as a result of the cooperation afforded the FBI by PC.

PC remained in Chicago at his own expense for a two-day period in order to lend his efforts to this investigation.

On 8/2/66 J. P. Dunphy and Exhibits Specialist [redacted] went to Chicago for the purpose of making the necessary survey to construct a three-dimensional trial model in the case involving Speck who is charged with the murder of eight nurses in Chicago.

Prior to conducting the survey, conferences were held with SAC Johnson and members of the State's Attorneys Office for Cook County, Illinois, and the Administrator of the South Chicago Hospital which rented the residence for the nurses. The scene of the crime was visited with Assistant State's Attorneys [redacted] and [redacted]. As a result of this visit, it was determined that in order to display what they will need for trial purposes two models will be necessary; one showing the detail of the two-story building where the crimes were committed, and another showing the relationship of this building to the surrounding area. The location of the beds and other pieces of furniture in the apartment is rather pertinent to the activity that took place and models of the furniture will therefore be made for their use.

Members of the State's Attorneys Office expressed sincere gratitude to the Director and the Bureau for our prompt arrival on the scene and the assistance to be rendered them by this trial exhibit. Without such an exhibit they would have a most difficult time explaining the sequence of events to a jury.

While the State's Attorneys Office indicated they do not think this matter will come to trial until latter part of this year, in view of the major nature of the crime there is a chance that there will be some court activity earlier. Therefore, we will prepare the trial exhibits as promptly as possible. They were instructed to immediately advise the Bureau if for any reason they decide that the exhibits would not be required.

Transmitted herewith for appropriate action is a request for assistance from a foreign agency.

This request must be complied with promptly in accordance with instructions contained in Section 103 of the Manual of Instructions. Submit the results of your inquiries in a letterhead memorandum. The Bureau is origin in this case and must be advised of all action taken.

The letterhead memorandum must be prepared in such a manner as to fully protect our sources and techniques. If the request concerns information from another Government agency, include in the letterhead memorandum only the information which the agency is willing to have furnished to the interested foreign government. Do not include the names of Special Agents in either the letterhead memorandum or in signed statements. The letterhead memorandum should receive a protective security classification if warranted but should not receive a group classification. Do not include the property statement in the letterhead memorandum unless special reasons exist and any such reasons should be explained in the cover letter.

The reputation of the Bureau within foreign agencies and the cooperation that we receive in turn from them will in a large measure be determined by the manner in which this type case is handled. It is imperative, therefore, that any requested investigation and the reporting thereof meet the highest standards of the Bureau.

RICHARD FRANKLIN SPECK

On July 14, 1966, a then unknown male murdered eight student nurses at their dormitory residence at Chicago, Illinois.

The only survivor known to have viewed this person was an exchange student nurse from the Philippine Islands.

Officer [redacted] an artist in the Graphic Arts Section, Chicago Police Department, spoke to the survivor for approximately 45 minutes and from this conversation prepared an artist conception, ie., a sketch, which the survivor advised resembled the unknown subject.

PROSECUTION - MURDER

As you know Speck is under indictment in Cook County for the murder of eight nurses and the State's Attorney for Cook County requested the construction of three-dimensional models for use in the trial of Speck. These models have been completed and are being shipped to Assistant State's Attorney [redacted]. The total weight after crating is approximately 1000 pounds. There are four crates with the following measurements which may be of assistance to [redacted] in making arrangements for their receipt:

1. 3' x 3' x 7'
2. 4' x 1' x 7'
3. 3' x 2' x 6'
4. 2' x 1' x 3'

The crates will depart Washington today and are being handled by the International Forwarding Company under FBI Bill of Lading B9068446 and should arrive in Chicago around noon 10/12/66.

There are attached copies of a resume of the testimony. Bureau Supervisor John P. Dunphy will give concerning these models. You should make available a copy of this to Assistant State's Attorney [redacted].

Advise the Bureau when [redacted] receives these models.

EXHIBITS SECTION

In accordance with the instructions received from Mr. JOHN DUNPHY, there is being transmitted via parcel post one package containing models of three beds prepared by the Exhibits Section for use by the State in the trial of RICHARD FRANKLIN SPECK. This material should be repaired and returned to the Cook County States Attorney, Attention: Assistant States Attorney [REDACTED] (former SA) prior to the scheduling of the trial.

For the information of the Bureau, it should be noted that the State Court has granted a change of venue as of December 1, 1966, and that the prosecution and defense have until December 19, 1966, to meet and select a county not contiguous to Cook County which they are to propose to the court as the site of the trial. This action was taken by the court in view of the extensive publicity given to the case in the Chicago area and the fear of the court that public prejudice might have been so developed in this area that selection of a suitable jury might not be possible.

For the information of the Bureau and the Chicago Office, on 12/29/66 an individual who identified himself as JAMES NICK GRAMENOS, Assistant Public Defender, Cook County, Chicago, Ill., appeared in the Dallas Office. He stated that he was assisting in defending RICHARD FRANKLIN SPECK and had come to Dallas in an attempt to get all possible background information regarding SPECK, with particular emphasis upon his associates, in an attempt to determine something concerning SPECK's mental condition. He asked that he be permitted to review the Dallas file on SPECK. I very courteously pointed out to him the confidential nature of the FBI files and that it would not be possible for me to permit him to review our file.

During the course of the conversation, it appears that he is having considerable difficulty in getting any cooperation out of SPECK's relatives here, and he claimed that SPECK had given him a large number of first names of associates in Dallas, but had been unable to furnish any definite information.

I pointed out to Mr. GRAMENOS that the investigation conducted in the Dallas Office was strictly that of an unlawful flight type, mainly for the purpose of locating SPECK.

GRAMENOS also stated that some representative of the Public Defender's office in Chicago was going to make the same request of the Chicago Office.

7/26/66

RICHARD FRANKLIN SPECK has been indicted regarding the murder of eight student nurses of the South Chicago Community Hospital, on 7/14/66, at their dormitory residence, 2319 E. 100th Street, Chicago.

Judge HERBERT C. PASCHEN, Cook County Circuit Court, Chicago, sustained a motion for change of venue of Attorney GERALD W. GETTY, public defender representing subject, from Chicago, Illinois to Peoria, Illinois. The trial is possibly scheduled for early February, 1967.

[redacted] Chief Investigator of instant murder trial. States Attorneys Office, Chicago, requests [redacted] signatory of the aforementioned letter, be interviewed and identity of [redacted] and [redacted] be resolved by [redacted] so they may be interviewed if determined necessary.

CG 88-10194

[redacted] advised he places no credence in contents of letter in view of overwhelming evidence, but recently determined Attorney GETTY has knowledge of receipt of instant letter and lack of investigation of letter alleging innocence of subject could prove legally embarrassing.

Bureau is requested to request Legal Attache, Buenos Aires, Argentina, to have [redacted] interviewed regarding aforementioned letter and if deemed necessary, information regarding the whereabouts of [redacted] and [redacted] be resolved so they may be interviewed if interview of [redacted] so dictates.

It is suggested the fact that instant trial may be scheduled for early February, 1967 be brought to the attention of appropriate officials.

Captioned subject is awaiting trial in State Court in Chicago and is charged with the murders of eight student nurses, all of whom were stabbed to death in their dormitory in Chicago on July 14, 1966. SAC, Chicago advises that the Cook County State's Attorney has received a letter postmarked 7/26/66 in Buenos Aires, Argentina. The letter, which is written in Spanish, alleges that the subject is innocent and the real assassin in this case is a doctor, who was an intimate friend of one of the victims. The letter is signed [redacted]. The writer claims to possess proof of the innocence of the subject.

The State's Attorney's Office has requested that the Bureau, if possible, have the writer of the letter located in Argentina and interviewed, noting that the Defense Attorney has knowledge of the receipt of the letter and lack of investigation of information alleging innocence could be legally embarrassing in the forthcoming trial.

RECOMMENDATION:

That Legat, Buenos Aires be requested through sources to attempt to locate the writer of the above-described letter. It is felt that the Bureau should be of assistance if possible in view of the serious nature of the charges against the subject. Attached for approval is appropriate airtel to Legat, Buenos Aires.
